oh oh oh oh oh  
this is the longest conversation  
usually my patience would've forced me to move  
on  
you're not the kind I'm used to  
don't know what I should do  
feet are too heavy to run  
you're keeping my attention  
disbelieve suspension  
like this was my favorite show  
and I'm tuning into you  
this could be our debut  
I want the whole world to know  
that I'm somewhere that I've never been  
ooh  
you've got me feeling allllllllllvvve  
breaking my defenses and now all of my senses  
can feel it, can hear it, can see it  
don't know what it is but  
I feel it, I hear it, I can see it  
you're peakin' my senses  
you're all in my senses  
I like what I'm sensing  
you're all in my senses

this is the fastest transformation  
everything is changing  
I think you're where it's coming from  
it's not like I was lookin'  
but once you put your hooks in  
our two worlds that turned to one  
now do you think that I should slow down  
don't know where to go now  
can't wait for this to start oh

so let's just keep it movin  
no room for excuses  
we've already come so far  
now I'm somewhere that I've never been  
ooh  
you've got me feeling allllllllllvvve  
breaking my defenses and now all of my senses

can feel it, can hear it, can see it  
don't know what it is but  
I feel it, I hear it, I can see it

ohohooooh  
hands over my ears  
I better close my eyes from you  
(losing my senses)  
my sense of touch  
is growing fonder  
if it includes a taste of you  
(losing my senses)

I can feel it, I hear it, I can see it  
don't know what it is  
but I feel it, I hear it, I see it  
Oh I can feel it  
I can hear  
don't know what it is but I oh I oh but I  
don't know what it is but I  
etc.  
You are an angel I swear!
