Just want your love
I just need your love
All I want is you, to come back home to
I just want your love

There's a million ways to say, I need you at night
While keeping my bride
But baby I'm...
I'm a millions miles away even from trying to hide
The tears that I cried
So why even try?

You know the only disaster in my life would be
if there was no you and me
So I just have to ask that you hear every plea
that you see what I see

Just see that I...
Just want your love
I just need your love
All I want is you, to come back home to
I just want your love

You are brilliant in a way that I can't describe
The way that you shine
But baby I'm...
I'm resilient so you know I'm gonna give it a try
Line after line, in every song that I write
Without you girl it's colder
All this brown that was green
Birds don't need to sing

And baby, this is the coldest that I think I can be
For giving you everything, It's simple I...

Just want your love
I just need your love
All I want is you, to come back home to
I just want your love

So baby don't say that you don't feel the way that I do

'Cause everyday that you're not here, I'm thinking of
you
Oh I... Oooo I...
I always fall for your type

I... I... I just want your love
I just need your love
All I want is you, to come back home to
I just want your love
And I just want your love
