You should be wearing a ring  
You should have everything you like  
Your man should open your doors  
And he should give you the world if you like yeahhhh  
ohhhh

He should be holding your hand in public  
Showing the world that you're his girl yeahh  
He should be holding you every night  
Making sure that you get it good  
'Cause I would, girl

And if you don't have that I offer all the above  
Tell me what are you waiting for

You should be loved  
You should be loved  
You should be loved  
You should be loved

He should be taking you out,  
He should be buying you something nice (real nice)  
You shouldn't be stressin' for nothing  
You deserve a man that treats you right yeahh

If I had you I'd make every moment we shared better  
than the last  
You should be happy, I'm wondering how I can make  
you understand

And if you don't have have all the all the above  
Tell me what are you waiting for

You should be loved  
You should be loved  
You should be loved  
You should be loved

He should be there with open arms when you're crying,  
when you're hurting,  
When you need him, he should always be there

You should be catered to, that's all that I'm saying to  
you  
You should be loved

You should be loved  
You should be loved  
You should be loved  
You should be loved
