Fighting this corrupt war American soldiers

Carrying democracy dead on their shoulders

No matter what u say

Itll never be over

Every day this gets just a little bit older

Corruption terrorists war for the hell of it

All of this corruption where is the cause

Dying for alc

Were dying for alc

Looking for those weapons of mass destruction

Dont need any of you bullshit explanations

Kick all their Asses

Drive the armored trucks in

Claim we got rid of all of sad dams corruption
