What have we here? Another Victim
What has become of today? Show the way
Whats going on? Another problem
Surely to put it away
Â
It hits me once again
These feelings of suicide
Feelings of suicide
It hits me once again
These feelings of suicide
Feelings i cannot hide
Â
What is the fear of what is offered?
Why are the problems unclear? Show the way
What is the reason for the confusion?
Why has all hope gone away?
Â
It hits me once again
These feelings of suicide
It hits me once again
These feelings I cannot hide
Â
What have we here? What's going on?
Too many victims too many problems still no one to
show the way
The blood in me has ran cold and i've sold my soul
down below
Â
It hits me once again
These feelings of suicide
It hits me once again
These feelings I cannot hide
