And there is nothing more
To make me stay just like I was
I've burnt myself to ashes
And I wake up again
The air is cold
And dream is over now
The dream is over now

Let it go (get me out)
Let it go (get me out of here)
Seal my scars (you know that I am)
Still alive

One day we will find out
That everything has changed
But it doesn't matter
You won't remember me
And now I must admit that it
Was just a game

You told me once
You told me twice
I guess I shouldn't believe that
I guess I shouldn't have known you
But now we have
To realize
There's nothing left to cherish
And there's no turning back

We cry ourselves to sleep
And lie ourselves to death
Keep trying to forget what we have done
We separate ourselves
From what used to be
Not to concede mistakes that we have made

I open my eyes
Nothing makes any sense
I have no mouth and I must scream
Well you know
I'm fine

If there is place to go
Where I could fall asleep forever
No matter how far is it I would go
I'd never turn back time
I think that we're just fine
Where we belong
Inside each other's dreams
