It's over  
I'm leaving alone  
It's over  
I'm leaving alone again  
And I'm hiding  
So far you can't find me  
And I'll stay  
Away from your love for now

All I was asking for  
Sincerity  
I've done everything I could  
Like a pet dog,  
I was guarding this heart  
On my last sunrise  
Under the sunlight that heats no more

There's nothing to complain about  
The biggest mistake and the only chance  
To be there  
But trust is a weakness

I never imagined  
That things could be different  
And I could be someone else  
Someone who doesn't know any of this

This is not  
What I've seen in your eyes  
How much can you sacrifice  
How much will we suffer this time  
This is not what I've seen in your eyes  
Forget your face  
Erase your name  
And turn all these pages to blank

It's hard to tell but it's all gone,  
The things I thought I knew  
I'm not the same and so are you  
I seem to wake up from this slumber

I never thought it would end this way

So many faces you've managed to wear  
I don't reflect in your eyes anymore

Now I've got nothing more to dream about  
Now I've got nothing more  
Since we have ruined everything that we've done  
My eyes are opened wide

I thought I can't stop loving you

It's over  
And everything ends tonight  
And I'm hiding so far you can't find me  
And I'll stay away from your love

Lies that you've said won't make us the same  
Again
