Was enough to me to be so fine  
When all I wanna do is being where you are  
It feels like the end of the world  
I'll always be your girl cause till the end of time  
You you'll be mine.

I'm feeling this heat spitting me big  
No matter the long day stops  
I wanna you close to happen to hold  
I wanna get on and on

Chorus:  
Ohh you're the key to my happiness  
Ooh really... living... here  
Ooh I started this face between us  
In the... with the... still heart miles away.

Playmy... miles away  
All your memories stay so clean in my mind  
The funny things you do such always make me smile  
I still rememeber when we met... me  
This is gonna be

I'm feeling this heat spitting me big  
No matter the long day stops  
I wanna you close to happen to hold  
I wanna get on and on

Chorus:  
Ohh you're the key to my happiness  
Ooh really... living... here  
Ooh I started hate this face between us  
In the... with the... still heart miles away.

Ohh baby give me clue these lonely nutc  
What do we have to do to ge this fly
