Air escaped, breathing, searching
The konvent klimaxxx
Getting nearer
Diving forever
One final gasp before mind's twilight

Kneeling under pressure
Skies are falling

De principii

Mirrors - gazed by the opposite
Your faith sanktified - stigmatized
Those ablation of virtues remains
One's negatron of flesh
Soon to be sakro stained

Coming in
Breathing/searching
The konvent klimaxxx
Getting nearer

Any terminal prayer is consumed
Evangelikum

De principii Evangelikum
De principii Evangelikum
