"Can't Be You"

Visit "[Can't Be You](#)" on MotoLyrics.com

See the way your members tends tall
Do you remember what you're doing at all
Do you think about where you've been
The days and nights you were playing the scene
You fascinate them with your smile
In conversation ????
Is your brain ever in key
Or are you living in constant fear
That you can't be you
Without the things that you do
You can't be right
Without another ???? tonight
Step ahead and picture yourself
Are you the same or somebody else
Communication is complicated
They okay and wish they'd waited

Is it happieness that you feel
Does it make you feel more real
Jumping around from this to there
From the beginning it goes right back to
You can't be you
Without the things that you do
You can't be right
Without another ???? tonight
Without another
Without another ???? tonight
Without another
Without another ???? tonight
You can't be you
Without the things that you do
You can't be you
Without another ???? tonight
Without another ???? tonight
