"One Good Thing About A Bad Thing"

Visit "[One Good Thing About A Bad Thing](#)" on MotoLyrics.com

There's one good thing about a bad thing I just found
out today
It's like they say about the good things give it time and
it will go away

I had a girl who loved me what a good thing
The best I guess that heaven had to send
And when that woman left me all my friends said
You know all good thing must come to an end
And now I've got a heartache what a bad thing
It's a worst heartache the devil had to send
But it can't last forever what a good thing you know
It's a good thing that the bad things have to end
There's one good thing...
[guitar + harmonica - steel]
There's one good thing...
