I'm not telling you what to do
But something's got a hold on you
Gotta let it go
Just take it slow
It's not always easy to do
But look for the strength that's in you
It's not hard to do
You gotta want it too
You can start all over again if you try
Just taking one step at a time
Don't worry 'bout what's said and been done
It's alright

[Chorus:]

You gotta find the soul that's in you
If you fall then I will catch you
There's a voice within your mind
Crying out for you to find
Turn the page you'll see the answers
To a day that's full of chances
No need to run and hide
Just believe and you will fly
There's always time

Sometimes it's an impossible ride
People telling you what's wrong and what's right
You know what to do
It's time to break through
You can start all over again if you try
Just taking one step at a time
Don't worry 'bout what's said and been done
It's alright

[Chorus]

You can turn it all around and be beautiful
Don't let your life just pass you by
You're so beautiful

[Chorus]
