We've given up because
We were losing our heartbeat
Running out of breath
Everyone's lost control
Crawling on the floor
Can't believe that it happened
Need a little rest
We will see us this fall

Everyone walks around we're like preachers, we're all
talk
And when you'll call my name, I'll be there, it's what I
came here for
Have you seen this girl? Would you take her friend?
Well you know you've got 5 minutes to get her
Let's ride this party as we always do
Let's score our goals

We've given up because
We were losing our heartbeat
Running out of breath
Everyone's lost control
Crawling on the floor
Can't believe that it happened
Need a little rest
We will see us this fall

"We're just the best I've ever seen" you say and I smile
And no one knows how you guys saved my live, and I
swear
I don't need a girl when I got you close, I would give
you all I can offer
Play this game together like we've always done
We'll win for sure

We've given up because
We were losing our heartbeat
Running out of breath

Everyone's lost control
Crawling on the floor

Can't believe that it happened
Need a little rest
We will see us this fall

Just let the instinct take all the roads
Just let the rhyme get stuck in the bones
Let's get to the top of the world

We've given up because
We were losing our heartbeat
Running out of breath
Everyone's lost control
Crawling on the floor
Can't believe that it happened
Need a little rest
We will see us this fall

We've given up because
We were losing our heartbeat
Running out of breath
Everyone's lost control
Crawling on the floor
Can't believe that it happened
Need a little rest
We will see us this fall

We've given up because
We were losing our heartbeat
Running out of breath
Everyone's lost control
Crawling on the floor
Can't believe that it happened
Need a little rest
We will see us this fall
