Intro:

In the beginning man was created. Image perfection.  
And although he was perfect, still something was  
missing.

He was incomplete, unwhole. Then woman was born.  
Together the creation of these two souls intertwined,  
and naturally, the two became one. Completion.

When your soulmate is placed at your side,  
hold on for dear life no matter the obstacles in your  
path

destiny is not temporary and true love will always last.

Just as first man evolved, and together you two  
shall fulfill destinies plan and together become one.

Completion. The evolution of man.

[Common]:

Eventually if it was meant to be

Eventually if it was meant to be

[Brenda J and The Anonymous]:

then it would be cause we related physically and  
mentally

[The Anonymous]:

It's like, beyond physical attraction

your explosive personality blows my mentality  
Actually my emotions on a rampage  
we ain't the same age but we in the same book, on the  
same page  
The conversation calls for meditation,  
never amateur check the calender let's make a  
reservation  
Communication is the bridge at times  
I wonder what your thinking,  
The truth will set you free like Abe Lincoln

[Brenda J]:  
Free I'm totally +emancipated proclaiming +  
is due to the love together we've created  
Our thoughts no longer seperated  
past barriers past road blocks you've opened  
my heart no need to pick the lock

[The Anonymous]:  
The key to my heart should be the sole controller  
Life is full of ups and downs like a roller coaster  
Im hip to your vibe like motorola  
As long as your a soldier im hanging in your world like  
a poster  
Supernova baby you shine extraterrestrial  
Sometimes you throw me off like Jonah on a water  
vessel  
But what we got is crazy real  
deep like a Navy Seal  
plus I like the way you make me feel baby chill  
You know the deal you playing with a full deck  
trump tight no jokes ace's high in full affect

[Brenda J]:  
Your affecting me and it's crazy cause love is a gamble  
Always had an ace up my sleeve incase my maid  
wanted to leave  
But now I ease dizzy from to much exhaling  
but not suffocating cause your my ...

[The Anonymous]:  
The breath of life, what is a man without a wife?  
That's absurd like a butcher without a knife  
I slice through your thoughts with words that cut you  
short  
Your torch keep me burning my world no longer dark  
I spark with the best but you no contest  
Conquest on your love my mission accomplished  
I feed you the knowledge your system digests  
You feed me the knowledge my system digests  
We make love in excess

We progress through thick and thin X-ray vision like  
superman  
I see through the bullshit  
that's why i like your style  
able to leap tall buildings in a single bound

[Common]:

Eventually if it was meant to be

Eventually if it was meant to be  
then it would be cause we related physically and  
mentally

[Brenda J]:

Physically and mentally we related  
now I'm elated what was once meant to be is our reality  
And I'm loving every moment of our ecstasy  
not too many people get a chance to see  
A connection between two people based not on  
sexuality  
but something real  
That's how you make me feel  
we formed a bond and I could go on forever  
telling the world how together we're two of a kind  
body soul and mind

[The Anonymous]:

What's mine is yours what's your is mine  
throughout the course of time  
we stay on point like a porcupine  
Anytime everything move faster  
every king need a queen so you could be my Cleopatra  
And i could be your Shaka Zulu  
I sock it to you I know you got the point  
baby doll I got the voodoo  
I want you for the rest of my life  
and time is starting your love makes me  
weak in the knees like Tonya Harding  
You stole my heart and that's a felony  
prison is the penalty confined in my mind in brain cell  
block 3

I locked you in my heart and threw away the key  
there's no escape I guard it like a maximum security

[Brenda ]]:

Secure is how I feel  
knowing that your soul not just your physical is here  
with me  
And i thank the all mighty for the day that you invited  
me  
to share your life  
and book me I stole your heart yes I'm guilty so punish  
me  
Because your maximum security reassures me  
you'll never leave my side your spirtitual vibe

[The Anonymous]:

No doubt  
I be there like the Jackson 5 satisfaction's  
why I step to you with my plan like a mastermind  
We pass the time as we dine you sip a glass of wine  
I looked you in your eyes  
and cast a line out of that's just mine  
You was amazed by the way that I attacked  
Now your white flag is raised high blowing in the gray  
sky  
Surrender your goods completely understood  
unlike them other chicks wishing they shoulda coulda  
would  
I told you once before baby I hit you  
with these them other cats don't stand  
a chance like Christopher Reeves  
That's how it goes  
You're not the type to wear provacative clothes  
Beautiful from your head to your popsicle toes  
Good looking what you got cooking  
17 ways word to Michael Franks  
give it to me raw with the mallionaise  
I take it downtown baby calm down making all the  
sounds  
like a figure 8 it's perfect all around

[Common]:

Eventually if it was meant to be  
then it would be cause we related physically and  
mentally
