Said it's alright
Whoaa whoaaaa

[Verse 1]

We have seen some things in our lives, we have some
long and solomn roads, that's how i know
Its alright to cry, go on and ease a heavy load, pray
hard, walk tall, do right, find love hold on for
Life, lord i know that you are there, I feel a burnin in my
bones, free us from the lions den and take us home.

[Chorus]

Everybody needs love in their lives
Everybody needs a little sun to shine
Go on let love come inside your life
Shine down on me

[Verse 2]

The sheppard and his angels guard our life, go on joy
comes early morn, the praise of the man
Will sure subside, pain walk away cause here come
love, smiling, faithful, alright, find love hold on for
Life
Lord I know that you are there, I feel a butnin in my
bones, free us from this lions den, and take us home

[Chorus]

Lord rain down on me and let your joy ease my pain,
take me from this lions den and let me smile again

[Chorus]

[repeat]
