Everytime you tell me
I'm not doing it right. I try my best to say what I mean
but I, I get so god damn confused.

When you, when you look at me the way you do.
I love you, I love you when I'm on pills.when I'm on pills.
I love you. I love you when I'm on pills.
When I'm on pills. I love you, I love you.
Every time you tell me I can't do it right by myself. I
already know you dissapointed when I wake up.
And sometimes we have explosions of total joy they
make me wanna fuck myself up even more.

I love you. I think of it I love you. when I'm on pills, When
I'm on pills. when I'm on pills. when I'm on pills. I love
you. I love you. when I'm on pills when I'm on pills.
