Germute  
Livingston Burgandy  
\$5.99, two for ten  
We're here in together  
Anti-vitamin in the crudest form of nutrients  
"You can't hold it against them," she said  
She believes that all those who suffer from life is from  
an illness are in the right  
The woman in the lobby stares me down, mocking and  
unconcerned  
In California, news anchors all look like they were  
plucked from a threesome porno scene  
You've got one slutty vixen type  
One down from her is the short hot business woman  
And in between them is an orange colored three piece  
suit  
White-haired and fifty something  
Witty with a dirty, tired smile  
The man standing next door  
Plays his radio just loud enough so you can tell there is  
something really close... on  
When this whole thing started I was a name  
Now there's a definition and a reason  
The more I expect the harder things are  
Jesus and the Sharp Electric Star
