What did you ever see in me?
You know that diamond ring will set you free.
While you are waiting for that dream..

I'll be waitin' in the morning when you're coming to your
senses.
Don't keep tellin' me you didn't mean it just to make me
stay.
How did you get so far away?
How did you get so far?

What did you ever do for me?
You thought those eerie eyes would break you free.
Are you still waiting for that dream?

I'll be waitin' in the morning when you're coming to your
senses.
Don't keep tellin' me you didn't mean it just to make me
stay.
How did you get so far away?
How did you get so far?

Something in our dreams to keep the stars away..
Something in the stars control our fate..

I'll be waitin' in the morning when you're coming to your
senses.
Don't keep tellin' me you didn't mean it just to make me
stay.
How did you get so far away?
How did you get so far?

I'll be waitin' in the morning when you're coming to your
senses.
Don't keep tellin' me you didn't mean it just to make me
stay.
How did you get so far away?
How did you get so far?
