I know you spent your money to see
What you hear on cd
They say what doesn't kill the soul will make it harder
But you can't be a stone hearted man

This isn't just a waste of time, addictions made me
smarter
But you can't be high all the time (high all the time)

Do you realize that you apologize,
When it's not your fault, cause were all fucked up.
And do you really think that it's worth it,
To be all worried about time

Cause I know what you want, I think I know, I think I
know what you want
I know you spent your money to see what you hear on
cd

They say what doesn't kill the soul will make it harder
But you can't be a stone hearted man
This isn't just a waste of time, addictions made me
stronger
But you can't be stoned all the time

Do you realize that you apologize, when it's not your
fault,
Cause were all fucked up
And do you really think that it's worth it,
To be all worried about time, worried about time
Cause I know what you want, I think I know, I think I, I
think I know, I think I,
I think I know, what you want, what you want
