Oh I, oh I, oh I
(I'm sick and tired, I'm sick and tired, oh)
Oh I, oh I, oh I
(Sick and tired)

Oh I, oh I, oh I
(I'm sick and tired, I'm sick and tired, oh)
Oh I, oh I, oh I
(Well)

Lately it's been hard times
I'm talking about the financial side
And they say when it rains it pours
Rains, it's flooding at my door

If it ain't one thang, one thang it's another
And I'm so glad that we got each other
I'm so sick and tired of being stressed out
Lord, please help me from this mess I'm in

Lord lift me up over the hurt and pain
Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

So lift me up over the hurt and pain
Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

Every day and every night I pray, yeah
Lord, help me find a way, yeah
To stay strong and to keep my, my sanity
So I can provide for myself and for my family

And I'm so glad they believe in me
'Cause their love that gives me energy
Said the love it gives me energy
And without them I couldn't make it, no way
So I'ma keep pressing on, on and on, on and on

Lord lift me up over the hurt and pain

Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

So lift me up over the hurt and pain
Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

I wanna see my family
Get what they want, have what they need
I wanna see with the finer things
Like the drop and the watch is reminding me

I don't wanna strug-struggle no more
Don't wanna live out here broke
Stay on the scene with the finer things
Like the spot that I got that's reminding me, yeah

Lord lift me up over the hurt and pain
Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

So lift me up over the hurt and pain
Deliver me from the rain
See I don't wanna stress over, stress no more
I don't wanna struggle no more

No more, no more, no more
No more, no more, no more
No more, no more, no more
No more, no more, no more, alright
