They sell us stupid leaflets to show us how to cope
We pay to save the wealthy, for us there is no hope
There's bunkers for the rich but fuck all for the poor
They're all fucking preaching, what a fucking bore

Government lies, we die
They're gonna save us, that's a lie
Government lies, we die
They're gonna save us, that's a lie
Whitewash your windows, it's just an excuse
Hiding under tables, what's the fucking use

Government lies, we die
They're gonna save us, that's a fucking lie
Government lies, we die
They're gonna save us, that's a fucking lie
Government lies, we die
Government lies, we die
