Is this the world that God made  
With poverty, strife & greed  
This so called world that God made  
With so many people in need  
This is pain world leaders gave  
Death & pain & fear  
As a child crawls another yard  
Death hangs just so near

Mummy, help me mummy  
Mummy, help me mummy

Is this the pain world leaders gave

Death, disease, starvation  
Buying bombs to fuel the arms race  
When they could have feed the nation  
Also the world that God made  
So violent, disturbed & corrupted  
And this was the world that God made  
Until it all erupted

Mummy, help me mummy  
Mummy, help me mummy
