I didn't even know the meaning of friends It wasn't
beautiful, but the days were safe
As I continued to live by myself I sometimes wanted to
call myself stupid

It's so lonely

I have something precious here so I can sing like this to
everyone
With being able to me with you guys I can say sayonara
byebye to my hindering past

Reach To everyone My sign
My overflowing feelings moving feelings
From the bottom of my heart I can say with confidence
That it's my treasure

The burden that is carried is big Everyone's life

Let's live together like this Even if 5 years past Even if
10 years past
It'll be nice if we stayed as friends forever

Us, who are matchless, are shining Even if we're
looked upon coldly, let's go grandly
When we stumble lets all share our pains and support
each other together

To make the vows supported by everyone
Big we can do it
The goal we were trying for was so far that we can't see
it
But we can reach it together

What we're aiming for is big The future that has taken
flight

Let's live together like this Even if 5 years past Even if
10 years past
It'll be nice if we stayed as friends forever

Reach To everyone My sign

My overflowing feelings moving feelings
From the bottom of my heart I can say with confidence
That it's my treasure

The burden that is carried is big Everyone's life

Let's live together like this Even if 5 years past Even if
10 years past
Let's stay as friends for eternity
We can shine together from here with this song
No matter where we go Go with us
