"Come Along"

Visit "[Come Along](#)" on MotoLyrics.com

I am sick and tired
Of all the work this week
Get drunk and have a party
That is what I need
I've got my friends together
We're gonna see the band
Get rid of all frustrations
This night will never end

Come along
Before you know the night is gone

Don't wanna waste my weekend
In front of the TV
Get drunk and do the pogo
That is really me
I need to have some action
I got to have some fun
Get all the punx together
The party has begun
