Owww! Yahhhhhhhh!

Distance between us bears it's weight on me
These words I pledge to you
I will never falter
I resent the burdens laid on you
Through my convictions
We will be together again
No matter what the trials
They will not break us

My life reflects these screams
Hate tore through me at the seams
Been shaped through bitter years
The venom burned my tears
My life I give to you
This fight I will not lose
You are my heart
Alone I am nothing

The weapons they trust
Will slowly wither and rust
Ensuring all that falls around us failed you
I'll see you again
It's just more then I could stand
This road I walk is paved with failure
This is my declaration
Impose my will
They fall against me

These walls are suffocating
All the world has seen the scars I bear
I know you'll never judge me
Through my convictions we will be together again
I can't forget the past
These wounds were meant to last
Yet I still face the day
A testament to strength
The rage to overcome
My battles fought and won
You are my heart

Alone I am nothing
