Winter is here again  
With blizzard and the rain  
Decaying woods and all  
Whispers of the winds  
Remains the same  
There I lie in silence  
Six feet down underground  
There I lie in silence  
Beneath the bleeding ground  
But where I be in  
Only blossom thou will know  
The blood orchid blooming  
Under the blood red winged snow  
A veil of blue mist rise  
Hiding the glaring sun  
Remote and sullen red  
It now all remains  
Wolves howl in the heathen land  
Piercing the sweeping time  
There roams the hell  
Another rioted flame  
Reflection of the silver moon  
Shines on the raven pool  
Amid the rituals  
Summoning of the werewolves  
This awaken by winter in you  
Amidst these gore and destroy all will face off  
You and I  
Inside the crystal caves  
Crimson eyes gleam  
To the temptation of fresh blood  
Echoing in the woods  
Everything is same here  
Old, eternal world  
Whatever that's been told  
It's nothing but a false  
What I've done forever wanted  
Right here forever this  
Inside here's forlorn writing  
Brought here by beast by beast  
Right here inside my heartache  
Winter blossom of sorrow

Only the grief and thou  
After the sun is deformed
