On your wedding day
may your hearts be filled with joy
you've been waiting for so long
and now the time has come
may you both keep the faith
on your wedding day

There will be times, when troubles will come
and there may be times when you be upset
but how many know
that the Lord he will supply, all of your needs
so sing a perfect harmony
on your wedding day

I come to you and say, keep the faith in the Lord, cause
the enemy may come
and he will try to knock you down
for weeping may endure for night
but joy will come in the morning light
just go down on your knees and pray
on your wedding day

I come to you and say, keep the faith in the Lord
cause the enemy may come
and he want to steal your joy
but you can do all things through Christ
whom strenghtens you, for I know it's true
just go down on your knees and pray
on your wedding day

(ROUND)

On your wedding day
may you keep the faith forever more
On your wedding day.
may you're life be filled with joy
and your heart be filled with praise
God will come and stand by you
just keep the faith in all you do
On your wedding day.
