the birmingham sun it burned me through i thought of  
you and with every step i've made mistakes you've  
seen me though you've seen me true all these towns  
are lonesome all their streets the same every rain's a  
downpour i'm nearly washed away as i wait this  
mornings news it seemed untrue but it's safe with you  
and with every step i've made mistakes you've seen  
me through you've seen me true all these towns are  
lonesome all these streets are same every rain's a  
downpour when i've nearly washed away you've kept  
me sane
