I don't think you heard A word I said That's fine it  
wasn't exactly what I meant We made a lot of Mistakes  
this time Imagining distance working

Are you willing to take it?

I have given all that I can give you have too And still we  
pretend that This isn't all just a Waste of time It's  
sublime and We are kindred

Are you willing to take it?

I'll scream so loud I won't make a sound Can you admit  
defeat? We'll burn the last of This to the ground Let's  
drop the seed And let it be

Carefully trust all that's Newly found sometimes We're  
hard to believe We'll burn the last of this To the ground  
Let's drop the seed And let it be  
It may sound simple When the last word Is said and no  
hurt Is shown on the Responding end End means time  
to end all (End is defeat) End means time to end all  
Defeat

And if silence is all That you hear it's not Intended  
you're so far From near that voice Only carries but so  
Many miles praise Denial and persistence Working

Are you willing to take it?
