Believe what you want Without checking it (It's not right)  
We don't agree at all (Got a lot to learn) I'll run so far  
I Won't hear a word And won't regret it I'm not concerned

I'm holding onto something That I lost and could never find  
I'm moving on now So I can see what I am Leaving behind

And if rejection is what You fear I'm being heard All wrong  
isolate To think straight To find meaning Not withdrawn

Two snakes of poison Which one do you Call friend?  
Two snakes of poison Got bit by both In the end  
When judged by past Not present it's all Just talking  
When judged by past It's forgotten that Everyone changes
