You been telling me it's over and I've seen you cry  
You been telling me you're hurting, that your love has  
died forever

It's a sad situation but I know how it feels  
And there's a little consolation  
If you can forgive yourself and

Hold on ,cos nothing ever lasts forever  
Just be strong cos the loneliness will die  
You should see the rest of your story  
There's another chapter don't worry  
Not every ending's the same,  
I know that you'll learn to love again

You been telling me it's hopeless now everything's  
changed  
A little illusion will help ease the pain  
believe me

There's another way open though your road is long  
Knowing what's left rights this wrong  
believe me

Hold on ,cos nothing ever lasts forever  
Just be strong cos the loneliness will die  
You should see the rest of your story  
There's another chapter don't worry  
Not every ending's the same,

I know that you'll learn to love again

Hold on ,cos nothing ever lasts forever  
Just be strong cos the loneliness will die  
You should see the rest of your story  
There's another chapter don't worry  
Not every ending's the same,  
I know that you'll learn to love again

You been telling me it's over and you don't know why  
You gotta look beyond this goodbye  
Believe me

Hold on ,cos nothing ever lasts forever  
Just be strong cos the loneliness will die  
You should see the rest of your story  
There's another chapter don't worry  
Not every ending's the same,  
I know that you'll learn to love again

Hold on ,cos nothing ever lasts forever  
Just be strong cos the loneliness will die  
You should see the rest of your story  
There's another chapter don't worry  
Not every ending's the same,  
I know that you'll learn to love again
