### "Hero By Death"

When you think of all the great people that have died  
The things they did, the way they lived their lives  
Many have gone without knowing their fame  
We are the ones that are left to blame

Examples of man's stupidity  
Endless lessons in humility  
Why do we wait till they're gone and dead?  
We martyr their soul as the good book says

Hero by death  
Hero by death  
Hero by death

We shouldn't wait until tomorrow  
Hail the greatness of today  
We shouldn't wait for times of sorrow  
Belated praise

Greatness of today  
Greatness of today  
Greatness of today

I never wait until tomorrow  
I love the greatness of today  
I never wait for times of sorrow  
Listen what I say

When you think of all the great people that have died  
The things they did, the way they lived their lives  
Courage, honour and dignity  
Leaving a mark in society
