You changed my world,
When you came to me,
You drove a passion,
In my soul down deep.
Lord, to follow you in everything,

CHORUS:

I don't want to go somewhere,
If I know that your not there,
Cause I know that me without you,
Is a lie.
I don't want to walk that road,
Be a million miles from home,
Cause my heart needs to be,
Where you are,
So I don't want to go.

So come whatever,
I'll stick with you,
I'll walk, you lead me,
Call me crazy or a fool.
For forever I promise you that:

(Chorus)

Without your touch,
Without your love,
Filling me like an ocean,
For your grace is enough,
Enough for me,
To never want to go somewhere,
If I know that your not there.

(Chorus)
