Love Won't Leave You Avalon lyrics

Artist: Avalon

Album: Stand

Year: 2006

Title: Love Won't Leave You

I think I caught you just in time
I caught you trying to survive
Broken pieces in your heart, never mend
But every hope you've ever had
Can breathe again

Love won't leave you empty-handed
Broken down and somewhere stranded
Love won't leave you hanging on for life
Cause love is
Love is always true
God is love
And love won't leave you

I wanna say you'll be okay
Always doing things the hard way
Living paralyzed by fear
But you know
You can let it go today
And save tomorrow

Love is gonna free your mind
Love is gonna steal your pride
And even though the hard times come
Love is gonna make things right

I think I caught you just in time
Love is gonna save your life
