#### Verse 1

Someday your own resolve is strong and other days  
you run  
Its two steps forward, one step back and stumble now  
and then  
You wonder if you'll ever make the difference, you pray  
that you will  
Well I know that prayer will be fulfilled 'cause

#### Chorus

Your life, woven day by day is a new design, of the  
glory God displays  
On the canvas of creation, through the poem of history  
In pattern of redemption, running through the tapestry  
Your life in Christ can be the greatest story ever told

#### Verse 2

You cannot see the hands of God or the feel the grace  
that flows  
From Him through you to those you touch, in ways  
you'll never know  
You cannot measure worth by human standards  
That's always a lie; oh you have to see through  
heaven's eyes 'cause.

#### Chorus

#### Bridge

In the light of eternity, standing face to face you will  
finally see  
Oh the very first time you'll understand your perfect  
place in the Master's plan in Him

#### Chorus
