Like finding the match when the lights go out  
Like finding the raft when the ship's going down  
That's how it was when You rescued my heart  
You covered the dark with the light of Your love  
It's so much more than anything I've felt before

Chorus:

It's unbelievable  
All the things that You do  
It's unexplainable  
How Your love pulls me through  
And I can't question  
The one thing I've found to be true  
It's undeniably You  
Oh, ha

Like finding a shelter in the pouring rain  
Like finding your way when you're lost in a maze  
That's how it was when You came in my life  
I'll always be safe with You here by my side  
It's so much more than anything I've felt before

Chorus:

It's unbelievable  
All the things that You do (It's unexplainable)  
Oh, how Your love pulls me through  
And I can't question the one thing I've found to be true  
Oh, yeah, it's undeniably You

When You reached out to me  
You gave me the strength to hold on again  
Oh, You're everything  
Everything  
It's all I need, this love that You've given me, yeah

Chorus 2x

Unbelievable you
