"Wonder Why"

Visit "[Wonder Why](#)" on MotoLyrics.com

Why, why, tell me do you wonder why
Some can look so hard and miss the truth
Some will stumble over it a hundred times
And never ever see the living proof
Well, there's a kind of love the world could never deny
Let everybody see it in our lives

(Chorus)

The world will wonder why
If you and I will shine His light
And hearts will discover life when we decide
To let ours go
We've got to give it up
And live the love
That opened our eyes
Live your life
The world will wonder why

Why, why, someone try and tell me why
We would want it any other way
A heart could change before our very eyes
Well, I've seen the difference love can make
Where is the kind of love this world could never explain
It's time to live the gospel unashamed

Repeat chorus

If we were living with a passion
What would be the reaction
I know a single heart can change the world
If we were loving with a strong love
Then their eyes would see
And the world might believe

Repeat chorus x2
