

## Anuhea "Higher Than The Clouds"

Visit "[Higher Than The Clouds](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Hey, we were up in the clouds  
On that Sunday sunset you taught me how  
Took a drive up the mountain  
Where we could look out on our little island  
Made me feel so comfortable  
In each moment that went by  
I wanted to show you my love  
For the very first time

So you really wanna  
So we're really gonna  
I can't believe we won't feel this way now  
So we gonna try it  
No more trying to hide it  
It's let it go and let emotions take control

You take me higher than the clouds  
And your touch  
Makes me wanna scream out loud  
You take me higher than the clouds  
I don't wanna rush  
Baby when we touch  
Wanna let you take me over

I'm so damn lucky, baby  
That I have you in my life  
I don't have to be on a mountain  
To feel like the top  
And I know it won't stop 'cause  
When I'm in your arms  
I feel like the queen of dreams to be  
I'm your lady  
You are my man  
Feel so right  
And I know you'll understand

So you really wanna  
So we're really gonna  
I can't believe we won't feel this way now  
So we gonna try it  
No more trying to hide it  
It's let it go and let emotions take control

You take me higher than the clouds  
And your touch

Makes me wanna scream out loud  
You take me higher than the clouds  
I don't wanna rush  
Baby when we touch  
Wanna let you take me over

Now if the sun is setting in your eyes  
I know all I wanna do  
Is see the sunrise  
Here we are  
Right here, right now  
Intentity<sup>1</sup>  
And it seems to me  
Like you and me were meant to be

We are like the beating of a drum  
Just a little touch from you  
Boy, I love you so much  
You'll be my superman  
I'll feel no pain  
Take me higher into the clouds  
Up and away

You take me higher than the clouds  
And your touch  
Makes me wanna scream out loud  
You take me higher than the clouds  
I don't wanna rush  
Baby when we touch  
Wanna let you take me over

Higher than the clouds  
I'm so damn lucky to be in your arms  
With the sunset and I'll be in your life

Submitter's comments:Â

Â<sup>1</sup>The word 'Intentity', although not officially a word, is the combination of intensity and intention.

It was first proposed by blogger Stickman, of whom, all the credit goes to. In his blog, he correlates the ancient Hawaiian (note that Anuheia is of Hawaiian ancestry) religion of Huna; that its belief of "having intent means we apply consciousness...that the energy level of our sub-consciousness is "mana," that of our conscious mind is "mana-mana," which literally means "twice as strong mana." ...when intention of the conscious mind marshals the resources of the subconscious, it raises emotional intensity to fuel the process."
