Please stay.
I just can not believe
That you're trying to leave
What we've got.

Don't leave.
I just want you to think
About how deep I'd sink
With you gone.

Cause I need you so badly,
I'm in love with you madly,
Don't leave.

If you go,
Don't forgive or forget.
Don't look back or regret
What you know.

If you leave
I will try to deceive
What my mind has perceived
All along.

That I need you so badly.
I'm in love with you madly,
Don't leave.
Cause I need you so badly,
I'm in love with you madly,
Don't leave.

I don't want you to feel
Sorry for me
When I'm gone too.
Because I only lived
This wonderful life for you.
Because I only lived
This wonderful life
For you...
