She said. She said. She said:

"Why the hell you calling for?
Why'r you knocking on my door?
You're not coming here to stay.
Move your dirty hands away.

This won't get you very far.
Who the f*ck you think you are?
I'm not willing to play games
I'll kick that smile right off your face."

Two stitches on her face
Two bruises on her arms
Then bleeding fingertips
They all will leave some scars.

But the biggest of them yet
The biggest one of all
Will be the one she got
When no one saw

Chorus:

That look in your eyes
And your hands on her thighs
You spread her legs wide open.
And your moans and your sighs
As she screams and she cries
Face down she has fallen.

She didn't call you by your name.
You were to be much more than that.
They let you go, claimed you're insane
You could no longer be her dad.

You violated her.
You attacked her from the back.
You told her it's her fault
For your violent attack.
You told her if she speaks
If she even thinks of it

You'll slit her god damn throat
You stupid piece of s*it.

Chorus:

With that loook in your eyes
And your hands on her thighs
You spread her legs wide open.
And your moans and your sighs
As she screams and she cries
Face down she has fallen.
