[Verse 1:]

Listen!

I thought I told you from the get go
I ain't tryna let go, that easy, believe me
Girl you know you're something special you had me
right at hello, hi my name is
You see we built this life together
You and me forever for worse or for better
And now we going through some things,
Nothing seems the same I don't know if we can change
But we should try...

[Bridge:]

What do you do when your tryna make it work but it
doesn't seem right
(I don't even know anymore)...
What do you say when every night after night all we
seem to do is fight
(I don't even know anymore)
What do we do where did we go wrong
(I don't even know anymore)
Whatever the case I hope this won't be long...

[Chorus:]

I can't get no sleep at night without you by my side so
come over I wanna hold ya
I know we fuss and fight but it will be alright
It ain't over, let me show ya
I can't get no sleep at night without you by my side
So come over I wanna hold ya, this thing ain't over, I'll
turn this ova
Baby come ova and I'll show ya

[Verse 2:]

See I'm still young and kinda restless
Can't answer all the questions that easy, believe me
Girl I know that times are hectic but we gotta make an
effort to work through this
See when my niggas ain't about you're the one that
holds me down (you're the one that holds me down)
I even thought about a ring wanna give you my last
name...

[Bridge]

[Chorus]

If we gonna do this right we need to take our time
I can't let a day go by without you in my life
If we gonna do this right we need to take our time
I can't let a day go by without you in my life

What do I do when I don't even know anymore
Hey!
I don't even know anymore
I don't even know...
