### **"Beyond My Control"**

In the beginning we had nothing  
But I just thought we would in time  
the situation doesn't help me cos  
it's always take, take, take.

I just don't want to talk about him  
I've heard it time and again  
thousands of zebras I remember  
and it was something he said

Cos it's true  
it's beyond my control  
it's so beyond my control  
And you want to keep control

When you're facing all your demons  
you have to stare them in the eyes  
to make a fuss and kick and scream is just just not your  
style

I just don't want to talk about it  
I've heard it time and again  
when you see me on the street sometime  
say hi, say hi.
