I've been walking down this long road simply taking in  
the view  
I've wandered down some wrong roads, hit a dead end  
or two  
Now I'm paying more attention before I even take a  
step  
I've gotta learn to forget  
I don't know 'bout you, what life has brought you  
through  
But we'll keep walking on, headed home and see what  
He will do  
(Chorus:)  
We're a world away from where we started  
No more looking behind  
We can make it if we just hold on  
Keep the faith 'cause love's on our side  
I point my heart in His direction knowing He will be my  
guide  
I've learned to follow my affections, walk away from  
foolish pride  
When I think of where we started, look to the end  
See the distance is less now than when we began

And it's now I see, I need you right here with me  
And we'll be walking on, headed home if we just  
believe  
(Chorus:)  
We're a world away from where we started  
No more looking behind  
We can make it if we just hold on  
Keep the faith 'cause love's on our side  
We're a world away but we're not there yet  
There's a whole lot of road up ahead  
I want to ride every single mile with you  
We're a world away  
No more yesterdays, we're a world away  
The One who has made a way for you and me  
Is the same One who's seen us do everything wrong  
But He can make it all right  
If we believe it's true  
If we say what we say  
And do what we do

And hold onto Him  
He's gonna see us through
