"Fly To You"

Visit "[Fly To You](#)" on MotoLyrics.com

Tell me someone, tell me
What is this love about
Help me someone, help me
Figure these feelings out

Strange, the way You love me
I'm high on the mystery
My heart is miles above me
Like Your love is setting me free

If I had wings, I'd fly
If I could find a way
Give me the faith, I'll try
No, no matter what it takes

I long to be by Your side
To show You my heart is true
If I had wings, oh
I know, I would fly to You

Tell me, won't You tell me
What is it gonna take
Help me, can't You help me
Take my heart for heaven's sake

I see the way You do me
In spite of the things I've done
My heart is saying to me
Look at what Your love has begun

I won't give up
On what I believe
When I could not reach heaven
Heaven came to me

How I long to be there beside You
Gimme half a chance and I would try to
If I could, You know that I would
I would fly to You
