"The Greatest Story"

Some days your own resolve is strong and other days
you bend
It's two steps forward, one step back and a stumble
now and then
You wonder if you'll ever really make the difference
You've prayed that you will, well, I know that prayer will
be fulfilled 'cause

Your life woven day by day is a new design of the
glory, God displays
On the canvas of creation through the poem of history
In the pattern of redemption running through the
tapestry
Your life in Christ can be the greatest story ever told

You cannot see the hands of God or feel the grace that
flows
From Him through you to those you touch in ways you'll
never know
you cannot measure worth by human standards
That's always a lie, oh, you have to see through
heaven's eyes, how

Your life woven day by day is a new design of the
glory, God displays
On the canvas of creation through the poem of history
In the pattern of redemption running through the
tapestry
Your life in Christ can be the greatest story ever told

In the light of eternity, standing face to face you will
finally see
For the very first time you'll understand
Your perfect place in the master plan and how

Your life woven day by day is a new design of the
glory, God displays
On the canvas of creation through the poem of history
In the pattern of redemption running through the
tapestry
Your life in Christ can be the greatest story ever told
