"The Love"

Visit "[The Love](#)" on MotoLyrics.com

I've seen that look a milion times
Disenchanted eyes
You don't have to say a word
I know it's love you doubt, but you're lost without it
You hope for one glimpse of heaven
You pray for a sign
But I know where all is forgiven
Let's go where we know love is alive

This love can change a life forever
The only wa to start is giving Him our hearts, yeah
His love will piece us back together
The is the way, this is the life
This love

It's nothing we could ever earn
It's undconditional
It's free, but it cost Him everything
It's this love we need and it's our road to freedom
So don't underestimate God's love
It's power to heal
Come take a drink from the fountain
Let's go where we know love is alive
