"World Away"

Visit "[World Away](#)" on MotoLyrics.com

I've been walking down this long road, simply taking in
the view
I've wandered down some wrong roads, hit a dead end
or two
Now I'm paying more attention before I even take a
step
I've gotta learn to forget
I don't know 'bout you, what life has brought you
through
But we'll keep walking on, headed home, see what He
will do

We're a world away from where we started
No more looking behind
We can make it if we just hold on
Keep the faith, 'cause love's on our side

I point my heart in His direction knowing He will be my
guide
I've learned to follow my affections, walk away from
foolish pride
When I think of where we started, look to the end
I see the distance is less now than when we began
And it's now I see I need you right here with me
We'll be walking on, headed home, if we just believe

We're a world away from where we started
No more looking behind
We can make it if we just hold on
Keep the faith, 'cause love's on our side
We're a world away, but we're not there yet
There's a whole lot of road up ahead
I want to ride every single mile with you
We're a world away
There's no more yesterdays, we're a world away

The One who has made a way for you and me
Is the same One who's seen us do everything wrong
But He can make it all right if we believe it's true
If we say what we say and do what we do
And hold onto Him, He's gonna see us through
