Bye, bye my friend, goodbye
Goodbye
With a lie you forget and break it
You'll make it you make it
you'll make it you make it
You'll make it you make it
you'll make it you make it

Cry in my empty room
and we try to
forget and break it
Fly,
High
And then oww you'll make it

Bye, bye my friend, goodbye
Goodbye
With a lie you forget and break it
You'll make it you make it
you'll make it you make it
You'll make it you make it
you'll make it you make it
