Disgorged planets molten waste vomits from below  
Deserts blasted into glass  
Storms of ash and bone  
Oceans boiled evaporate forest turns to sand  
Shield your eyes from Gomorrah  
Light burns through your hand  
Misery suffering repression and strife  
Wiped from the earth  
In one brutal strike  
Splitting the atom wielding the knife  
I am the wrath of god  
Doomsday device  
End to your life  
Doomsday device  
End to your life  
Doomsday doomsday rewrite the book of creation  
Black day new reign curtain falls over the human age  
Burn them burn them wipe out the venomous vermin  
Erase your faith mankind is dead and decaying
