Burn a mark into your hand to serve to remind  
Who has spoken to thee  
With your disobedience cometh a price  
A terrible penitence  
You have angered me unforgivably  
The decisions is made  
On this judgement day you will demonstrate  
Where your allegiance lies  
My laws you chose to break  
Insolence foolishness  
Your life now mine to take  
Consequence ignorance  
Put down before the knife  
Bleeding heart torn apart  
In ritual sacrifice  
Suicide take your life  
Burn drown kill yourself for me  
Scream die your god is pleased  
With plague famine thunder and flood  
I demand blood  
Hate hate hate the human race  
No peace be found until mankind is erased  
Hate hate hate the human race  
No peace be found until mankind is erased  
You die I live feeding on your suffering  
Your one crime your true sin  
Is that of being born human
